

Three Terminal Medium Current Positive Voltage Regulators

LM78MXXM3

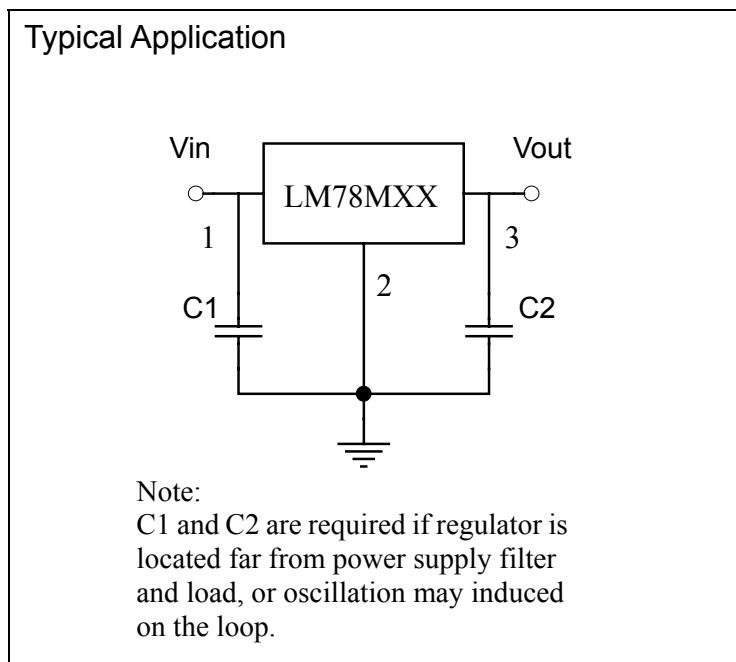

Description

The LM78MXXM3 series of three-terminal positive regulators are available in the SOT-89 package and with 5V, 6V, 8V, 9V, 12V, 15V, 18V and 24V fixed output voltages, making them useful in a wide range of applications. These regulators can provide local on-card regulation, eliminating the distribution problems associated with single point regulation. Each type employs internal current-limiting, thermal shut-down and safe operating area protection, making them essentially indestructible. If adequate heat sinking is provided, they can deliver over 500mA output current. Although designed primarily as fixed voltage regulators, these devices can be used with external components to obtain adjustable voltages and currents.

Absolute Maximum Ratings (Ta=25°C)

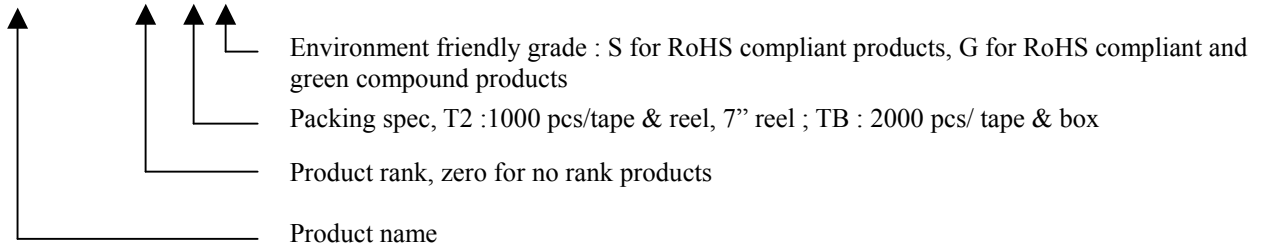

Parameter		Ratings	Unit
Input Voltage	LM7805~LM7818	35	V
	LM7824	40	
Operating Temperature Range		-40 ~ +125	°C
Output Current		500	mA
Storage Temperature Range		-65 ~ +150	°C
Total Power Dissipation		0.5	W

Note : When mounted on minimum pad size and tested in free air condition, without heat sinking.

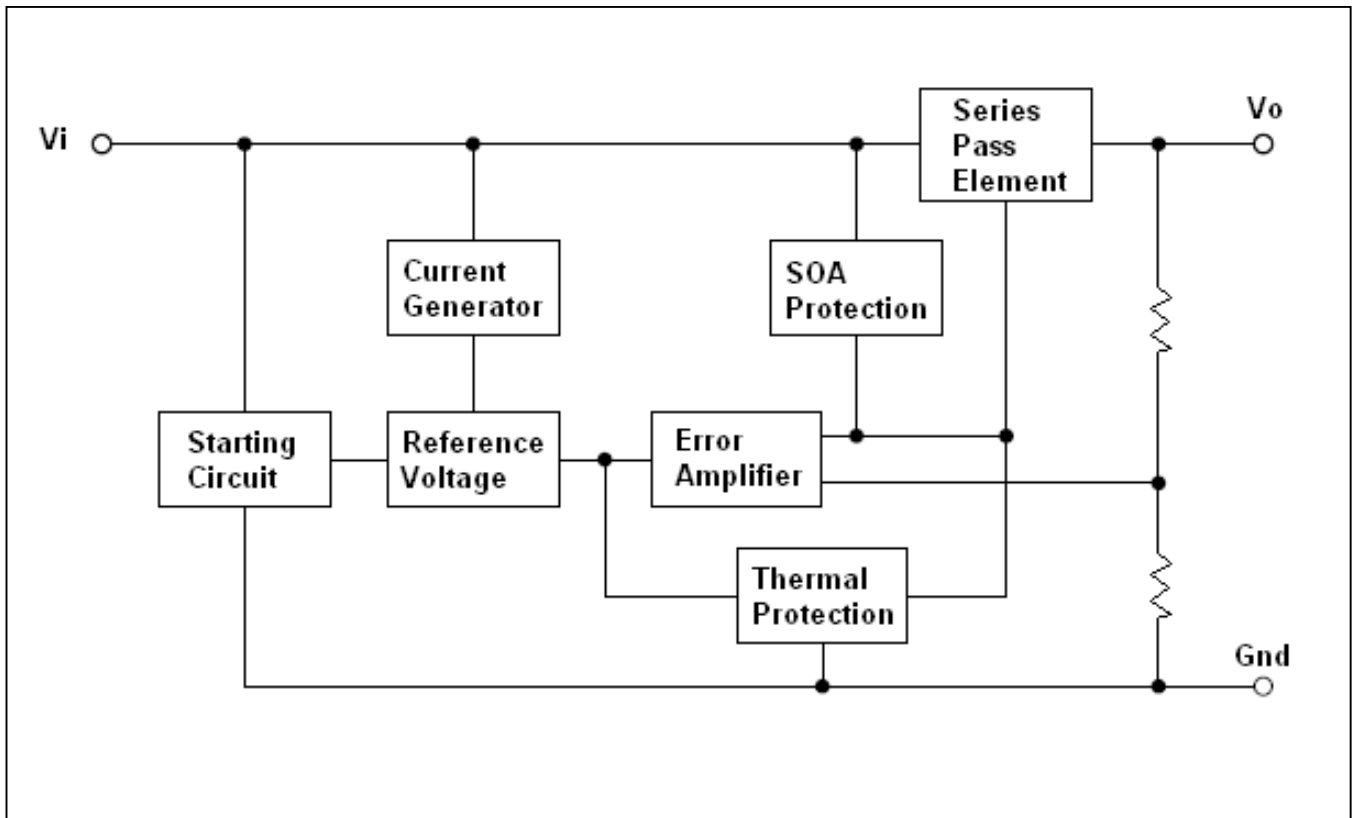

Ordering Information

Device	Output Voltage Tolerance	Package	Shipping
LM78MXXM3-A-T2-G	±3%	SOT-89	1000 pcs / Tape & Reel
LM78MXXM3-B-T2-G	±5%	(Pb-free lead plating and halogen-free package)	

Block Diagram
